

## Weighing booth

For the protection of persons and products when weighing active and auxiliary substances

## Accessories and components

As a system supplier, **clean-tek** has various cleanroom components developed in-house, all of which are characterised by their flexibility and maximum modularity.

Thanks to its own production, the company can offer an optimal cleanroom solution for almost any application.

Since weighing booths are often a key success factor in the production process when transferring and sampling active and hazardous substances, **clean-tek** has been investing in the development of its own weighing booth for decades.

The **clean-tek weighing booth** complies with the high requirements of the EC GMP guidelines and has become firmly established as a tried and tested system in renowned pharmaceutical sectors.

### Features and benefits:

- Product and personal protection
- Complies with FDA, GMP, DIN EN ISO and WHO requirements
- Offers highest purity requirements
- Long-established product, constantly optimised
- Achieves class A according to GMP guidelines
- Flexible workplace design
- Future-proof investment thanks to a 10-year subsequent delivery guarantee for all conversion and supplementary components
- Easy to clean and resistant to disinfectants
- Generates a vacuum in the weighing area
- Integrated lighting
- Individual design according to customer-customer specification

**Clean-tek** stands for first-class cleanroom technology  
from our own production.

As a pioneer in cleanroom technology, **clean-tek** has played a key role in shaping the development of modern cleanroom technology since 1986.

Tradition, innovation and experience are the values that still characterise **clean-tek** today and at the same time the key to constant growth and success.

## Services

- Engineering, implementation and service of cleanroom systems
- Development of customised special solutions
- In-house production of all essential cleanroom components
- Interface management during the entire project
- Consulting and training
- On request, delivery of turnkey cleanroom systems as a general contractor
- Consultation and training

## Products

- Cleanroom ceiling systems
- Cleanroom wall systems
- Cleanroom door systems
- Laminar flow modules
- Weighing units and sampling cabins
- Decontamination showers
- Accessories and components among others:
  - Material pass-throughs
  - Lights
  - Filter fan unit
